INSTRUCTIONS FOR ORDERING PARTS

WRITE your name and complete address plainly, also state where you wish the repairs shipped and how, either by Parcel Post, Express or Freight. Unless orders instruct us to insure goods, Parcel Post shipments are made at the customer's risk.

Give the number on the part wanted, also the number, name and year model of the machine for which it is wanted.

If the part has no number, or it is defaced so it cannot be given, order by the description, always being sure to give number, name and year model of machine for which it is wanted. For instance: No. D-36 for No. 14 Fertilizer Distributor, Model 1907; or Belt for Feeding Fertilizer with Links at Ends of Bars for No. 21 Hand Fertilizer Distributor, Model 1905.

No. 13C

When not specified particularly in the description for which machine a part is for, it will fit on any machine named in the group in which it is listed.

R. H. and L. H. mean Right Hand and Left Hand. When designating Right or Left Hand, stand facing the way the machine runs.

In case of doubt as to the correct name or description of part wanted, or if you do not find the part listed, it is advisable to send old parts, with transportation charges prepaid, to us to be duplicated. Be sure to tag each piece with your name and address and notify us by letter, explaining just what you want, how you are sending the part, either by Parcel Post, Express or Freight. Also state if you wish old part returned to you.

No. 34

PARTS CLAIMED DEFECTIVE

Under no circumstances will claims for defects be allowed unless parts claimed defective are returned, transportation charges prepaid, to the factory for our inspection.

When shipping parts for inspection, see that each piece is tagged with shipper's name and address, and advise us fully by letter.

In cases of declined claims, the inspected parts are subject to the shipper's orders for disposition, and Bateman and Companies, Inc., cannot be responsible for such parts for more than 30 days, at the expiration of which they will be scrapped without credit to the shipper. Shippers accept these conditions when shipping parts.
